

TALLY CENTRAL LTD

("Tally Central", "TAL" or the "Company")

Activities & Objectives 2026 – end of Q1 Update

22 April 2026

Tally Central Ltd (TAL: JPJ), the money innovator and operator of the Tally full-reserve physical gold monetary system and gold currency: tally®, is pleased to update shareholders about the Company's activities for the first quarter of 2026.

Tally Central's platform technology and infrastructure enables the UK public to use sound money in an easy access savings account with a TallyMoney debit Mastercard®, and provides transparent and inexpensive gold ownership, with real-time liquidity for payments. Every unit of tally (the currency, spelt with a lowercase 't') equals 1 milligram of ethically sourced physical gold, priced at the gold spot price, from London Bullion Market Association (LBMA)-accredited brokers and vaulted in Switzerland on behalf of Tally customers with LBMA-accredited high security storage provider, Brinks®. Tally's standalone monetary system operates independently to the debt-based fiat-currency banking system but seamlessly works with the funds transfers and merchant payments infrastructure. Tally is the first in the world to offer individual customer IBANs (International Bank Account Number) to access a currency that is not issued by a government.

Cameron Parry, Founder and Chief Executive Officer, commented: "The Company has now entered the second year of its two-year plan to profitability. The first quarter of 2026 saw continued growth coupled with ongoing operational and organisational improvements.

During Q1 2026, the Tally Monetary System has grown to monthly averages of:

- Over 19,000 transactions by volume per month;
- Over £10,000,000 per month of transactions by value; and
- Over £1.5m in annualised revenues

The first quarter of 2026 has seen the Company continue to add to the thousands of active UK customers using tally and continue to add to the tens of millions of pounds worth of physical gold that the Company vaults on behalf of those customers.

As a business we are focused on growing revenues and demonstrating applications of the Company's core product. Whilst designed to be a global monetary system and payments network, the Company currently remains focused on achieving profitability primarily from the UK market. During Q1 the Company continued to monetise its investment holding in Deccan Gold Mines Limited to reduce debt and provide working capital to achieve ongoing growth.

It remains the Company's corporate strategy to achieve profitability by the end of 2026, and then, as previously stated, the Board will assess whether to IPO on a public stock market in 2027 or 2028, in the UK or the US respectively. In the interim, Tally Central's shares continue to be available for trading on the JP Jenkins platform in London (TAL: JPJ), for existing and potential new shareholders."

tally[®] priced in GBP at time of this announcement (and previous announcements):

- 1 tally[®] = 11.30 pence
- £1.00 = 8.85 tally[®]

- As of 16 January 2026 announcement, 1 tally = 11.02 pence (approx. £1 = t9)
