TALLY CENTRAL LTD

("Tally Central", "TAL" or the "Company")

Activities & Objectives 2026 – end of Q2 Update

03 July 2026

Tally Central Ltd (TAL: JPJ), the money innovator and operator of the Tally full-reserve physical gold monetary system and gold currency: tally®, is pleased to update shareholders about the Company's activities for the second quarter of 2026.

Tally Central's platform technology and infrastructure enables the UK public to use sound money in an easy access savings account with a TallyMoney debit Mastercard®, and provides transparent and inexpensive gold ownership, with real-time liquidity for payments. Every unit of tally (the currency, spelt with a lowercase 't') is 1 milligram of ethically sourced physical gold, priced at the gold spot price, from London Bullion Market Association (LBMA)-accredited brokers and vaulted in Switzerland on behalf of Tally customers with LBMA-accredited high security storage provider, Brinks®. Tally's standalone monetary system operates independently to the debt-based fiat-currency banking system but seamlessly works with the funds transfers and merchant payments infrastructure. Tally is the first in the world to offer individual customer IBANs (International Bank Account Number) to access a currency that is not issued by a government.

Cameron Parry, Founder and Chief Executive Officer, commented: "The Company is now well into it's second year of its two-year plan to profitability. Q2 has been a quarter of significant product development that will enable rollout of unique consumer solutions in the second half of 2026 and into 2027. In June, Tally signed contracts with WorldPay® as part of the next step in broadening Tally's accessibility.

Q2 saw the creation and completion of new marketing content which will see an expansion of digital advertising through existing online channels such as GB News and going out through independent media sources such as The Mike Graham Show and on Andrew Gold's Heretics, from July. There are further independent media distribution channels in process, along with other creative collaborations for marketing campaigns to be rolled out in the second half of this year. All of which is to increase TallyMoney's brand presence and drive customer acquisition.

Throughout the year the Company continued to monetise its investment holding in BSE-listed Deccan Gold Mines Limited to supplement working capital and fund growth initiatives. In line with the business focus, and following the sudden tragic loss of our CFO at the end of 2025, the Board has decided to change the end of financial year from 30 June to 31 December, aligning the Company's financial year with the calendar year, moving forward.

As previously reported, the Company's corporate strategy is to become profitable and then assess where best to IPO on a public stock market in 2027 or 2028, in the UK or US respectively. Tally Central's shares continue to be available for trading this year on the JP Jenkins platform in London (TAL: JPJ), for existing and potential new shareholders.

As a business we continue to focus in 2026 on achieving profitability and releasing new product applications of Tally's independent monetary system that solve specific problems encountered by people within the incumbent fiat currency system."
